

Pediatric study guide

* Newborn Screening

RADHA PATEL
NP REVIEWS

- When does Anterior Fontanel close?
- When does posterior Fontanel close?
- What do you do if Anterior Fontanel close by Birth?
- What does it mean if there is Absent of red reflex in one eye?

- What does it mean if there is present a white reflex in one eye?

- if you note café au lait spots more than 8 on the skin, that patient is high risk for what condition?

- When do you refer patient if they have Hydrocele?

- When do you refer patient if they have cryptorchidism?

- When do you refer patient if they have strabismus as
- When do you refer patient if they have umbilical Hernia as
- Expected weight at 6 months as
- At Birth which vaccine do you give as

- When do you give them flu shot of

- When do you start giving Live vaccine of

* Jaundice

- Types of Jaundice

- Bili level ≥ 15 , next step in treatment of

- Common Cause of Jaundice in Newborn is

* Acute Dacryocystitis

- S/S :-

- Rx :-

* Coarctation of the Aorta

S/S

* Pyloric stenosis

- Assessment :-
- S/S :-
- Rx :-

* Intussusception

S/S :-

* Orbital Cellulitis

- Difference Between orbital cellulitis
VS Periorbital cellulitis?

* Neuroblastoma

S/S

* Nephroblastoma

S/S

* Which blastoma crosses the
midline ☺

* Cryptorchidism

- When do you Refer Patient
if they have cryptorchidism ☺

* Acute Epiglottitis

- S/S :-

- Rx :-

- Why do you order lateral neck X-ray for epiglottitis patient?

* Kawasaki Disease

- S/S :-

- Rx :-
- Hand, foot & mouth Disease
- S/S
- Fifth Disease or Also known As _____ (9)
- S/S :-
- Rx :-
- when can child is no longer Contagious (9)

* Mononucleosis

- SIS :-

- Dx :-

- Rx :-

- what to do if they have mono + Strep
Both Positive :) How do you
treat strep in this case :)

- How long Mono + Patient need
to Avoid Sport Activity :)

* Molluscum Contagiosum

- S/S
- if molluscum contagiosum seen in pediatric patient groin area what do you suspect of

* Scarlet Fever

- S/S

Expert clue = It's All About
"S"

* Rubella or "ordinary measles"

• S/S

Expert clue = It's All About

"O"

* Rubella or German measles

• S/S

"Expert clue :- Bella came from Germany"

* Roseola Infantum

• S/S

'Expert clue :- Rosy Baby'

* Cystic Fibrosis

- SIS

- Dx :-

- Rx :-

* Leukemia

- S/S :-

- Dx :-

* Testicular Torsion

- S/S

- Cremasteric Reflex & Phren Sign negative or positive d/s

- Dx :-

- Rx :-

* Gynecomastia

- 3/5

- What do you do if they have persistent gynecomastia for greater than 2 years?

* Scoliosis

- What do you do if curvature is ≥ 40 _____

* Leg-Calve Perthes Disease (LCPD)

- S/S

- Age group for LCPD :-

* Slipped Capital Femoral epiphysis

- S/S

- Dx :-

- Rx :-

* Turner Syndrome

S/S

"Expert clue :- Tina is a Turner uncle"

* Klinefetter Syndrome

• S/S

"Expert clue :- Klifer is a girly guy"

* Tanner Stages

	For Female	For male
Stage II		
Stage III		
Stage IV
